Oil sputters to 3-month lows as demand concerns mount

STEPHANIE KELLY
New York, November 8

OIL PRICES SLID more than \$1 on Wednesday to their lowest in more than three months on concern over waning demand in the United States and China. Brent crude futures fell \$1.68, or 2.0%, to \$79.93 a barrel. US crude lost \$1.78, or 2.3%, to \$75.59.

Both benchmarks hit their lowest since late July. "The market is clearly less concerned about the potential for Middle Eastern supply disruptions and is instead focused on an easing in the balance," ING analysts Warren Patterson and Ewa Matyjas said in a note to clients, referring to crude supply concerns.

Crude production in the United States this year will be slightly less than previously expected but demand will fall, the US Energy Information Administration (EIA) said on Tuesday. The EIA now expects total US petroleum consumption for fall by 300,000 barrels per day (bpd) this year, reversing its previous forecast of a 100,000 bpd increase.

US crude oil stocks rose by almost 12 million barrels last week, market sources said late on Tuesday, citing weak consumer demand and the prospect of recession.

The melt-down we've seen in prices is reflecting two things: concerns about the global energy hitting a brick wall based on data out of China and also a

sense of confidence that the war in Israel and the Gaza Strip is not going to impact supply," said Phil Flynn, analyst at Price Futures Group.

Still, China's October crude oil imports showed robust growth and its central bank governor said on Wednesday that the world's second-biggest economy is expected to hit its gross domestic product growth target this year.

Beijing has set a target of about 5% growth. Tempering supply concerns, analysts from Goldman Sachs estimated seaborne net oil exports by six countries from oil producer group OPEC will remain only 0.6 million bpd below April levels. OPEC has announced cumulative production cuts amounting to 2 million bpd since April 2023.

In more bullish news for crude prices, OPEC expects the global economy to grow and drive fuel demand despite economic challenges including high inflation and interest rates.

Exports of goods and services contracted faster than expected, feeding worries about the energy demand outlook. In the euro zone, data showing falling retail sales also highlighted weak consumer demand and the prospect of recession.

Sebi eases access to unclaimed REIT, InvIT funds

PRESSTRUST OF INDIA
New Delhi, November 8

CAPITAL MARKETS REGULATOR Sebi on Wednesday came out with detailed procedures for dealing with unclaimed funds of investors lying with entities having listed non-convertible securities, REITs and InvITs.

Also, the regulator has put in place a manner of claiming such unclaimed amounts by investors. The new framework will take effect from March 1, 2024, the Securities and Exchange Board of India (Sebi) said in three separate circulars. The move is aimed at prescribing a uniform process of claim for such unclaimed funds in a streamlined manner for the ease and convenience of investors.

This came after the board of Sebi in September approved amendments to

rules about the IPEF (Investor Protection and Education Fund) disclosure, real estate investment trusts (REITs), and infrastructure investment trusts (InvITs).

Going by circulars, Sebi has defined the manner of handling the unclaimed amounts lying with REITs, InvITs, and in the escrow accounts of the listed entities (which are not companies), transfer of such amounts to IPEF and claim thereof by the investors.

Additionally, the regulator has standardised the process to be followed by a listed entity, REITs and InvITs for the transfer of such amounts to escrow

accounts and by the investors for making claims thereof.

Investors may approach the debited entity / REIT/InvIT to claim their unclaimed amounts, thereby ensuring minimal disruptions in the claim process for investors.

Under the rule, any amount transferred to the escrow account remaining unclaimed for a period of seven years shall be transferred to IPEF.
